## A WORLD OF HANDBALL

Since 1970 we have believed in the power of handball. It was back then the idea of gathering young handball players from all over the world in one place for a tournament was born. Few believed it was possible. Today we call this event, where more than 20.000 participants from all over the world gather, socialize and play tough games and build human bridges, a world of handball.

# OUR MISSION

We create the world's largest meeting place for youth handball players. A venue where differences in skin colour, gender or culture are put aside. Where respect and understanding are the corner stones. Where the possibility of playing handball together with thousands of young players from all over the world is the tool used to create a better world. Partille Cup aim to be the most professional youth event in handball in which such opportunities are not just dreamed about, they are realized.

# EXPERIENCES

The Partille Cup week is filled with activities for both players and leaders. As a start of the tournament we have our Opening Festival Ceremony in Scandinavium where flag parades, dance and music portray a world of handball. In the middle of the week we also have our Leaders Party where thousands of leaders are invited to a great party with food and drinks, music and entertainment. This is a week full of experiences and pure magic!

# TESTIMONIALS

"The organizers of the Partille Cup do a fantastic job. High-class handball intermingled with a cross-border relation at the side of the handball fields. Handball is a great family where all show each other respect. Partille Cup is an important part of handball development in the world."

*Uwe Gensheimer, Germany and Paris Saint Germain*

"I have been involved in Partille Cup twice, I think it's the perfect tournament for young handball players! I look back on my trips to Gothenburg and Partille Cup with joy. The matches are played outdoors which I think makes it extra fun."

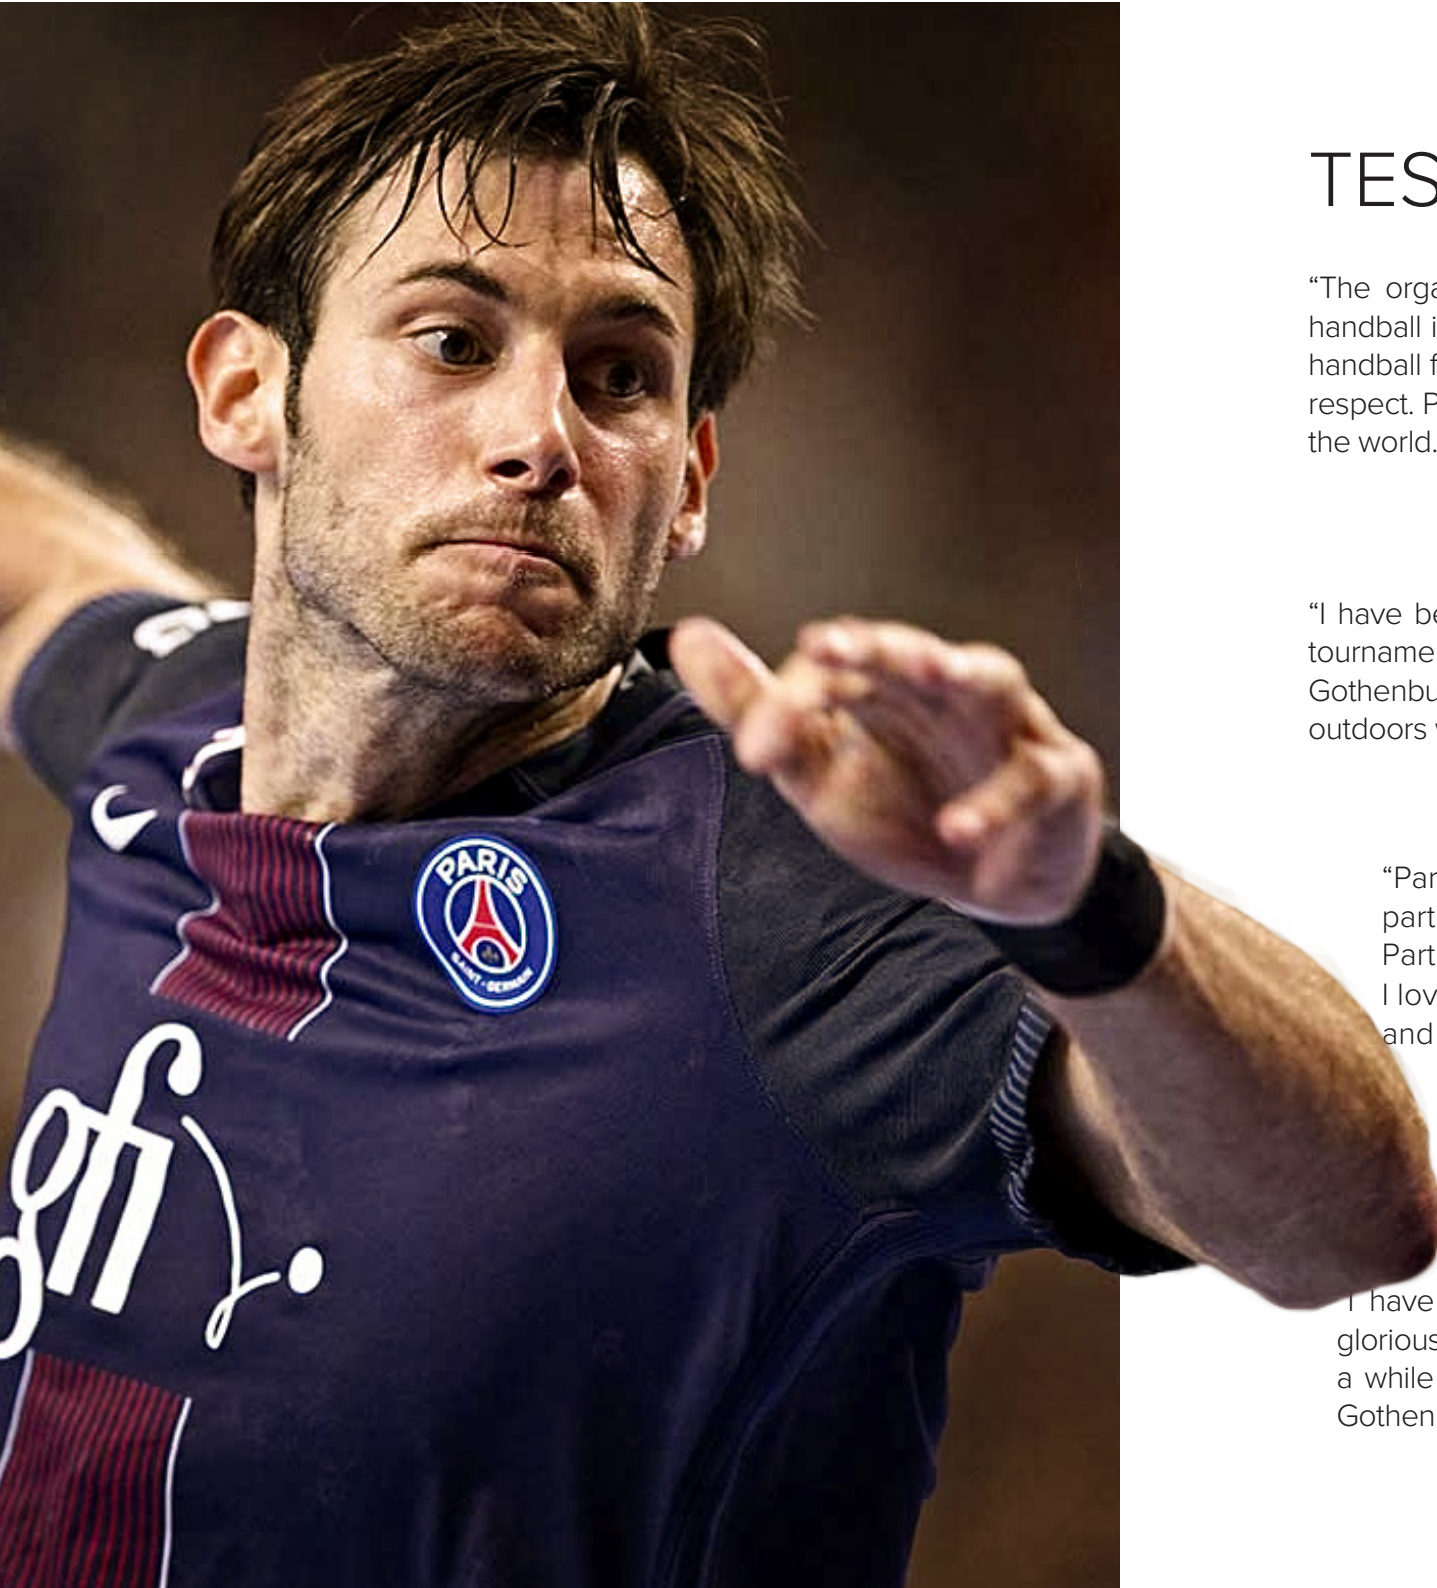

*Nora Mørk, Norway and Larvik*

"Partille Cup is the best tournament in the world. I have participated ten or eleven times. Even today, I try to visit Partille Cup as often as I can, which tends to be every year. I love to stroll on Heden, in the very center of Gothenburg, and meet people from all over the world. Partille Cup's effort to make handball a global sport can not be underestimated"

*Isabelle Gulldén, Sweden and CSM București*

"I have only positive memories of Gothenburg, there were two glorious weeks when we won the European Open in 2005! It was a while ago, but even today, when I hear about Partille Cup and Gothenburg, it creates only positive feelings."

*Steffen Weinhold, Germany and THW Kiel*

# SINCE 1970

Since 1970 we have believed in the power of handball. That's when the idea of gathering youth handball players from all over the world for a tournament was born. With Partille Cup we aim to give the participants a lifelong experience. We are constantly working on improvements and development of the event. And we are often associated with words such as organized, including and spectacular describing the tournament. Words that may also reflect the enthusiasm and the passion of the crew working behind the scenes. We are proud to be part of a world where handball makes a difference, creates a better society and contributes to integration and a common future. Together we build a better world.

A world of handball.
